

VICTOR MIRABELLI

without BOUNDARIES

August 28 - October 17, 2021

An abstract painting with a textured, layered appearance. The top left features dark, swirling blue and black strokes. The center and right are dominated by warm, earthy tones of ochre, sienna, and terracotta, with some lighter, almost white, areas that suggest a bright sky or a distant horizon. The overall effect is one of depth and movement, with visible brushstrokes and a sense of organic growth.

without BOUNDARIES

This collection of new work portrays a *modern view* of the classic landscape—a style that suggests a sense of freedom from restrictions and boundaries.

Mirabelli establishes tension using darker hues to produce shadows and depth, while a softer, more impressionistic approach builds the structures. Earth tone and soft pastel hues blanket the canvas projecting a sense of abandon and open space.

Dramatic shadows brush against impressionist paint strokes often with a modeling technique adding a pulsing/vibration effect that ultimately adds texture and depth. The windows and doors are an opening into the viewer's inner thoughts and feelings.

Splashes of different hues mimic an aged patina on the surfaces of buildings that are often colored a bright white representing purity against the land.

Within this new collection, Mirabelli explores trees through an intimate look at their structure and aesthetic. Their formation is stark and graphic created by bold brush strokes. Light streams from the sky, then softens as it reaches the ground. Rich tones color the backgrounds, not saturated but muted, like watercolor with a hint of shimmer.
